

ENGLISH LANGUAGE PROGRAM KIDS 4

Description

This course will develop your child's English language skills at a Pre-Intermediate (A2) level through practice of the four skills - listening, speaking, reading, and writing - as well as through grammar, vocabulary, and pronunciation exercises. Students will explore English through a wide range of subjects, such as: social sciences, math, and art. These subjects cover a broad base of topics enabling students to converse more naturally about a variety of themes that interest them.

Your child will explore language learning within an interactive classroom that provides many opportunities to practice real-world communication. Outside of the classroom, your child will be expected to complete assignments that extend in-class learning and use a variety of digital resources for language practice with the guidance of the teacher.

Course Objectives

In this class, your student will learn and gain a better understanding of grammatical structures such as: past and present tense in singular and plural form, adjectives, modal verbs, comparatives and superlatives, and correct context for *when* and *if*

Your student will also learn about countries, languages, common illnesses, accidents, and injuries, as well as the solar system. Students will use their knowledge of these topics to improve your English skills through various activities, projects, and discussions.
