

## ENGLISH LANGUAGE PROGRAM KIDS 5

### **Description**

This course will develop your child's English language skills at a Pre-Intermediate (A2) level through practice of the four skills - listening, speaking, reading, and writing - as well as through grammar, vocabulary, and pronunciation exercises. Students will explore English through a wide range of subjects, such as: social sciences, math, and art. These subjects cover a broad base of topics enabling students to converse more naturally about a variety of themes that interest them.

Your child will explore language learning within an interactive classroom that provides many opportunities to practice real-world communication. Outside of the classroom, your child will be expected to complete assignments that extend in-class learning and use a variety of digital resources for language practice with the guidance of the teacher.

### **Course Objectives**

In this class, your student will learn and gain a better understanding of grammatical structures such as: simple past and *used to*, present perfect, *going to* and *might*, comparatives and -ed/-ing adjectives, present progressive for future, indefinite pronouns, *be made of/be used for*, present passive, past progressive, adverbs, quantifiers, and reported speech.
