Introduction: The argument stating that “conclusion” is not logically sound. The errors lying in the premise(s) and conclusion are the following: 1-----, 2----- and 3----- .

Body 1: One error/First, state error 1. Explain it with respect to the context. Then, suggest a solution.

Body 2: Another error/second, state error 2. Explain it with respect to the context and then suggest a solution.

Body 3: Finally,/Third, state error 3. Explain it and suggest a solution.

Conclusion: Thus, restate errors. Restate solutions

Logical Flaws

1. Vague terms
2. Weak analogy
3. Generalization
4. Confusing cause effect with time correlation
5. Assuming both courses of action are mutually exclusive

Logical Flaws

6. Unreliable study
7. Unrepresentative statistics
8. Assuming that people/issues remain the same over time.
9. Assuming there is only one factor leading to a certain outcome.
