### General English 7

Welcome to learning English at AMIDEAST. One of this online component to the face-to-face training in the classroom is for your instructor to enter your daily attendance and test grades. You can log on and check your course progress from time to time. Attendance is the first item below and grades can be found in the Navigation box on the right.

In addition, your instructor may use the "Course Announcement Forum" to send you updates about the class or add them to the calendar at the right. Also listed below, there is also a discussion forum for sharing ideas with your instructor and classmates and a student folder where your instructor may ask you to upload files. Below that is the link to a web conference virtual classroom if your instructor decides to hold an online training or meeting session. The last item listed below is an online tutor that you can use by yourself to improve your typing skills.

Also, don't forget about the social media window at the bottom of the page where you can share thoughts and comments with your instructor and classmates. It's very similar to using Facebook wall. You can even "like" posts!

Good luck with your course and enjoy learning!
