

# Possessive Pronouns Notes

## Summary

Possessive pronouns are used to show ownership or possession of something. They replace nouns in sentences and indicate that something belongs to someone or something else.

## Explanation

Possessive pronouns are a type of pronoun that indicates possession or relationship. Unlike possessive adjectives, which modify nouns (e.g., “my book”), possessive pronouns replace nouns entirely (e.g., “mine”). They are used to avoid repetition and make sentences more concise.
