Test Administration

• The TOEFL iBT® test is administered via the internet at secure, authorized TOEFL test centers around the world.

• Instructions for answering questions are given with each section. Test takers can take notes throughout the entire test. At the end of testing, all notes are collected and destroyed to ensure test security.

• For the Speaking section, test takers wear headphones and speak into a microphone. Responses are recorded and sent to the ETS Online Scoring Network where they are scored by a combination of human raters and AI scoring.

• For the Writing section, test takers type their responses. Responses are sent to the ETS Online Scoring Network. The TOEFL iBT® test uses both AI and human scoring for the Writing section.

• All human raters are trained and certified by ETS and are continuously monitored throughout the day each time they rate.

• Scores are reported online.
