

Best Practices for *Self-paced Learning*

Make the most of your TOEFL IBT Preparation Course

- 1** Make sure you watch videos, listen, and read carefully! Take notes, re-read or listen again to parts you do not understand and **highlight** when needed. Then you can ask your teacher during in-person lessons or on the discussion board.
- 2** Manage your TIME. Try to schedule two 30-minute periods to study between in-person lessons. During scheduled learning time, try to avoid distractions.
- 3** Use your resources! Ask your teacher for support when needed.
- 4** Reach out to your CLASSMATES and stay active between lessons - you will learn a lot and make friends along the way!
- 5** Talk to other students in your class about what you are learning and **SHARE** your best TOEFL tips and strategies!
- 6** If you do not do great on a quiz or task, that's okay! Pay close attention to the question and feedback, watch the videos, and try the quiz again.
